*To Rob*

A boy we all knew and loved quite deeply  
is now a memory we will cherish completely.  
We are all here today to show we care,  
Our memory of Rob we must all share.  
A boy so full of hopes and carefree dreams,  
getting over the pain is hard, so it seems.  
Just remember how special he was to us all  
and that a prayer to him now is just like a phone call.  
Rob, we love you and are here for you today,  
we know you are with us in every way.  
So for all that knew him or  
are just here for support and love,  
just remember Rob is happy  
because he is with God,  
shining brightly above.  
We love you, Rob.

FUTURE PLANS: Travel, College?, Armed Services.

Goodbye & farewell H.H.S. It's been real. I'd like to remind some of you, and even tell some of you the time we (class of '87) had. First was our 9th grade year with the gang, T.P., J.Z., R.F., K.J., C.A., C.G., D.D. that was a real crazy year. The wild times are countless. Then there was the 10th grade summer. That's when the party life began. Sitting at George's eating pizza with mushrooms, that only George can make. The parties every night. (Yipping again.) Two barrels a day helps you in every way. Tigger's driving, which almost took my life many of times. Snowblind nights and keg party fights. Then came the Labor Day brawl on South St. 22 people fighting whoever is close enough to hit. The fall came with the Fall shows and the Yarmouth House. Gooney birds were skawking out loud. (A gaggag!) How about Mr. Lynch's class in 9th grade. Whoa! Then there was the 11th grade where everything turned upside down. We got to admit the class of '87 was alive and on fire that year, where everybody was having fun out in the smoking area. Writing this story makes me want to listen to "Scarlet Begonias." So who has seen Stanley G. Roper lately. I caught him last night. We had a long session on the quality of music, life, and "Gonage." Then there was the Spring Tour where they were practically giving out Album Covers which were the best of all times. We had fun at the Rats Nest, and Bubba's house. And of course the KCKC. Who brought more memories to more people than any other organization. Well, that basically is all I have to say about them. I was recently voted "most likely to remain on Cape Cod." I have to say that's VERY UNLIKELY. I am going to go out and get a job. You know I might get rich or I might get em busted. (T.B., there, !) That's all folks! P.S. We'll see ya!

## Class History

We entered Harwich High School in September of 1983, as curious yet apprehensive teenagers. Looking forward to new challenges and an unfamiliar episode in our lives, we had our first taste of what the next four years would be like. Mr. McBride greeted our President Mary Larivee and Vice President Sharon Murphy with a packet full of Fundraising ideas and aimed our class in the right direction. With a concert or two behind us and the coliseum closed, we found that dances and parties weren't all that bad. At the same time we were settling in and getting a little respect from Mr. Goldstein, the space shuttle Challenger came down in the early morning darkness.

Completing a successful magazine drive and the selling of green carnations, we managed to find time to watch the live come-back of David Bowie and go to see Wargames. We would have to wait a while or find some crafty way of getting to see Eddie Murphy because we were not of age to handle his humor. Major repairs were made on a disable satellite in space aboard the Challenger, and we adjourned from our studies to a much needed vacation. Nauset beach received us with a warm welcome, and we were spectators to a U.S. dominated summer Olympics in Los Angeles.

Better prepared for what was to come in school, we anticipated a busy sophomore year with Dean Damon and David McKenna leading the way. Reagan was re-elected in a landslide victory, marking one of the most notable events of 1984. The first woman to run for the Vice-Presidency did so, heightening optimism for a short while. Godspell's production gave those who participated and those who attended an entertaining time. Mrs. Dorgan joined our class and aided in the selling of candy bars, which did finally get paid for in the middle of our junior year. The Golf team maintained its seventh consecutive Cape and Islands title while Troy Dill started to star in track. Tragedy struck home in the spring with the shocking death of Rob Johnson. Nationally, our President was criticized for visiting a West German military cemetary. Summer came and the busride to Nauset beach was full of coolers and bodies. It wasn't long before we had forgotten the dates and battles Mr. Besciak had lectured to us about that year.

We came back, unmistakably, upperclassmen. Chris Trocchi brought us to reality. An efficient record keeper, he organized our lobster raffle and made the Class of 87' a well-known group at the Harwich Cranberry Harvest Festival. Car wash and bake sale profits added to our class treasury. With PSAT's out of the way and term papers to look forward to we managed to keep Thursday evenings free to laugh at Bill Cosby. The girls soccer team played its first game under the lights and of course it was against Nauset. Bob Geldof, a crusader who reawakened pop music's social consciences

established Band Aid and then gave us Live Aid. Miami Vice influenced some of us with its pastel tee shirts and popular music. There were the frustrating Nauset vs. Harwich hockey games which won't be forgotten. William Perry's 305 lbs. gained national attention during the unBEARable Superbowl XIX. Springsteen and Rambo brought in 1986 with their trend setting productions. We sat in study halls, shocked by the disaster of the space shuttle Columbia.

No one can say they didn't have an effect on our Junior Prom. Displaying democracy at its extreme. From a vote on a song to a vote on a band, our class was duly organized. The Patriots played on our NEW gym floor and Clarence Barnes embarrassed Chris for the first time. As for the party afterward, the Hemeons deserve thanks again. The tent was a great idea, but maybe those killer port-a-potties were not. The Class of 1986 disappeared along with chew in school. With the delightful atmosphere painted in the hallways, we were relieved to head for Nauset Beach once again. What really happened that day is still unclear to most of us, but that is probably best. The relief came with summer, parties could be found anytime. Wine coolers, Moonlighting, CD's, and drug testing are those memorable topics of last summer. For the first time we seriously had to think about our future.

The Red Sox caused an emotional eruption when they gave away the World Series to the Mets. Reality struck, we were Seniors at last. We were notified about the new rules and stricter regulations, but we were Seniors at H.H.S. and knew they didn't apply to us. Little did we know, they did! With minimal assistance Celtics tickets were raffled off. We entered the world of need to know exams. Mr. O'Leary demanded results with yearbook assistance. The field hockey team displayed another outstanding season with Lisa Dery in goal. Car washes continued in the bitter cold and Christmas trees were also sold. The girls basketball team took the Christmas tourney again, giving a preview of what was to come. Our Christmas vacation was a time for finishing college applications and bringing in the New Year. The Amtrak/Conrail collision and fire in the Puerto Rican Hotel were not positive signs of what was ahead.

As our last few months go by we will squirm while awaiting college acceptances and still others of us will slowly slack off in anticipation of graduation. Our lives now reach a period of unrest as we are faced with the confusion of the present national scene. Now that we'll be facing the real world we have the ability to bring about change and as harbingers of peace we will leave here with confidence. Projecting what will happen to us is difficult, but with the memories and lessons of the past four years behind us, we go forth with hope and an appreciation of those who are sending us away.
